Study programme. All Chemical Engineering students study the same core programme for the first two years, covering fundamental science and mathematics and how these apply to practical engineering problems.

### **MEng Chemical Engineering | Study | Imperial College London**

The fourth and final year of this integrated Master's course offers a wide choice of advanced modules based on state-of-the-art research carried out in the Department. Studying to this level means that graduates require fewer years of work experience to become a Chartered Engineer (see Professional accreditation).

### **MEng Electronic and Information Engineering | Study | Imperial College**

This is the standard textbook for courses on probability and statistics, not substantially updated. While helping students to develop their problem-solving skills, the author motivates students with practical applications from various areas of ECE that demonstrate the relevance of probability theory to engineering practice.
