The history of Taiwan dates back tens of thousands of years to the earliest known evidence of human habitation on the island. The sudden appearance of a culture based on agriculture around 3000 BC is believed to reflect the arrival of the ancestors of today's Taiwanese aborigines. The island was colonized by the Dutch in the 17th century, followed by an influx of Han Chinese including Hakka immigrants from the Fujian and Guangdong areas of China, across the Taiwan Strait.
