Hyperlink cinema is a term coined by author Alissa Quart, who used the term in her review of the film *Happy Endings* (2005) for the film journal *Film Comment* in 2005. Film critic Roger Ebert popularized the term when reviewing the film *Syriana* in 2005. These films are not hypermedia and do not have actual hyperlinks, but are multilinear in a more metaphorical sense.
