Clinical data management (CDM) is a critical phase in clinical research, which leads to generation of high-quality, reliable, and statistically sound data from clinical trials. Clinical data management ensures collection, integration and availability of data at appropriate quality and cost.

Clinical data management - Wikipedia

Medical imaging is the technique and process of creating visual representations of the interior of a body for clinical analysis and medical intervention, as well as visual representation of the function of some organs or tissues . Medical imaging seeks to reveal internal structures hidden by the skin and bones, as well as to diagnose and treat disease.

Medical imaging - Wikipedia

modified and updated version of the combined prior three reports (3,4,9) issued by the American College of Radiology Blue Ribbon Panel on MR Safety, chaired by

ACR Guidance Document on MR Safe Practices: 2013

The A1 suffix is typically seen as part of an application identification number or grant number and "A1" is often used to refer to a new, renewal, or revision application that is amended and resubmitted after the review of a previous application with the same project number.
