About Parks College. It might be the satellite we launch that leads to more efficient spacecraft, the robotic device we develop that makes surgery less invasive, the infrastructure we design to provide clean water or the next-generation of pilots we educate to lead the future of aviation.

Human factors and ergonomics (commonly referred to as human factors) is the application of psychological and physiological principles to the (engineering and) design of products, processes, and systems.

### **Human factors and ergonomics - Wikipedia**

Systems engineering is an interdisciplinary field of engineering and engineering management that focuses on how to design and manage complex systems over their life cycles.

### **Systems engineering - Wikipedia**

Decision-Making is a mental or computational activity implied by a necessity of a choice without yet either . known criteria or known alternatives or with not sufficient information (improved def. from 1997).

High-quality, adequately-powered clinical trials investigating the effect of Essence of Chicken (EC) on cognitive function are lacking. We conducted a randomized, double-blind, placebo-controlled clinical trial on healthy adult volunteers to determine the effect of EC on short-term memory, working memory, and selective and sustained attention. As a secondary objective, we evaluated baseline stress as a modifying factor by including treatment, stress and visit as main effects in a three-way ...
