

cosmos an illustrated history pdf

The cosmos (UK: / ˈkɒz m ˈs /, US: /-m oʊ s /) is the universe. Using the word cosmos rather than the word universe implies viewing the universe as a complex and orderly system or entity; the opposite of chaos. The cosmos, and our understanding of the reasons for its existence and significance, are studied in cosmology – a very broad discipline covering any scientific, religious, or philosophical contemplation of the cosmos and its nature, or reasons for existing.

Cosmos - Wikipedia

The New York Cosmos is an American professional soccer club based in the New York City borough of Brooklyn that played in the North American Soccer League (NASL) from 2013 through 2017.

New York Cosmos (2010) - Wikipedia

Along with his translations, Digges added commentary and new ideas, making it clear that the Copernican model was more than philosophy, it was a physically real model of the solar system.
