been a long felt need to rationalize the earthquake resistant design and construction of structures taking into account seismic data from studies of these Indian earthquakes, particularly in view of the heavy construction programme at present all over the country. It is to serve this purpose that IS 1893 : 1984 "Criteria for earthquake resistant design of structures"™ was prepared. It covered the seismic design considerations for various structures. As an adjunct to IS 1893, IS 4326 ...

FEMA P-749 / December 2010

This comprehensive and well-organized book presents the concepts and principles of earthquake resistant design of structures in an easy-to-read style. The use of these principles helps in the implementation of seismic design practice. The book adopts a step-by-step approach, starting from the fundamentals of structural dynamics to application of seismic codes in analysis and design of structures. The text also

focusses on seismic evaluation and retrofitting of reinforced concrete and masonry ...
