Science fiction (often shortened to Sci-Fi or SF) is a genre of speculative fiction, typically dealing with imaginative concepts such as advanced science and technology, space exploration, time travel, and extraterrestrial life.

### **Science fiction - Wikipedia**

The Death of Science Fiction had remained a perennial, if tiresome, subject for reviewers of SF novels for decades. In each case, the supposed flatline of the genre—whether in terms of quality, viability, or intrepidity—has leapt back to gloriously resolute life, producing enough notable books in each surge of the commercial ECG that one must finally consider another oneself amid a de facto deferral of the end.
